EnrichGO_BP_dot
protein folding
nuclear membrane reassembly
positive regulation of intracellular protein transport
nuclear membrane organization
endomembrane system organization
response to cold
exit from mitosis
iridophore differentiation
polyamine metabolic process
amine biosynthetic process
myelination in peripheral nervous system
late endosome to vacuole transport via multivesicular body sorting pathway
cellular biogenic amine biosynthetic process
positive regulation of intracellular transport
peripheral nervous system axon ensheathment
